OMSI™

Who are we?

Founded in 1944, OMSI is one of the nation's leading science museums with an international reputation in science education. Our mission is to inspire curiosity by creating engaging science learning experiences for students of all ages and backgrounds.

We foster experimentation and the exchange of ideas, and we help our community make smart, informed choices. We are dedicated to helping people build the confidence and skills they need for whatever the future holds through hands-on, high-quality learning experiences both in the museum and through programs delivered across Oregon.

Our Proven Impact

Experience and expertise sets us apart, but it's our impact that matters most.

Over
1,000,000
people engage in science learning experiences each year through OMSI - in PDX and across our region.

Over
36,000
adults explore the museum every year in themed, child-free evenings at the museum or fascinating Science Pub lectures.

Our outreach education program serves over **70%** of Oregon's school districts, plus six western states, including Alaska. That's 96K students each year.

Each summer
4,000
children participate in our camps and classes.

60+ YEARS
of outdoor education programs mean we've turned the great outdoors into learning environments for 160,000 students.

36
Oregon counties served through OMSI outreach education, bringing year-round science curriculum directly to schools.

133,000
email subscribers

112,000
Facebook page likes

1,100,000
omsi.edu annual page visits

37,000
Twitter and Instagram followers

A History of Working Together

Partners find creative, engaging ways to reach their goals.

NATIONAL NAME, LOCAL GOALS.

How does a national corporation show local community engagement? Our partnerships with Microsoft supported opportunities for direct interaction with our audience as a sponsor of our weekend workshops.

FULFILLING INITIATIVES.

A founding sponsor, LAM Research looks for creative, interesting ways to support its company-wide commitment to the Maker movement, to developing diverse audiences, and to building career pipelines.

ENGAGED, HAPPY EMPLOYEES.

More than techies, Planar employees value volunteerism and education. Their support as event volunteers help us run the not-to-miss event of the year and help their employees feel involved.

The Opportunity

Portland Mini Maker Faire®

The Greatest Show (and Tell) on Earth—
a family-friendly showcase of invention,
creativity and resourcefulness.
And you can be a part of it.

Why Are We Excited?

140+ MAKERS

From tech enthusiasts to crafters to homesteaders to scientists to garage tinkerers, we're bringing some of the brightest, most creative minds in Oregon together.

8,000+ VISITORS

This year is going to be better than ever, spanning our parking lot and throughout the museum.

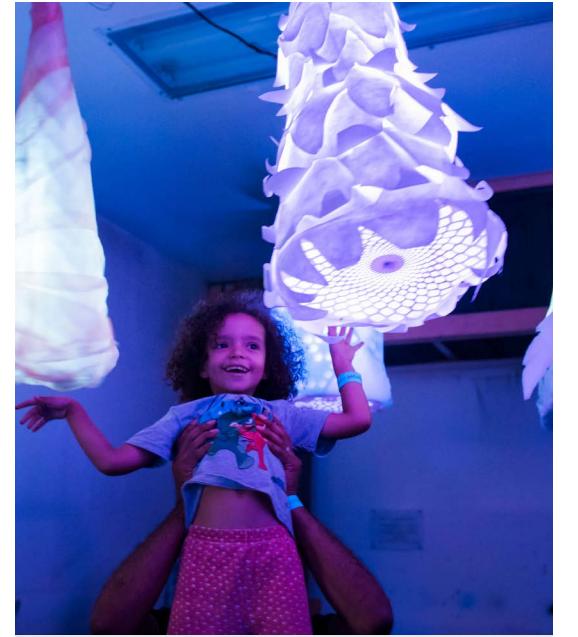

SHOW STOPPERS

8 Interactive Workshops inspiring visitors to become makers. Topics from robotics to cupcakes bring in diverse learners.

INNOVATION STAGE

A showcase of Makers and projects that are impacting the community. Past presenters include LAIKA, Harper's Playground, DIY Drone Developers, and University of Oregon.

TECH MEETS ART

More than crafting, this weekend is a celebration of how creative thinking, design, and technology can come together to impact 21st century students.

Maker Faire Commons Sponsor: \$1,500 Contribution

Visitors gather to fuel this day of exploration and innovation with tasty treats from local vendors.

BENEFITS:
